Michele Awada

Full Stack Developer

About Me

Hello, I'm Michele. A tech whiz and enthusiast. Creating modern websites. *I find the **most** optimal solution, not just the one that works*

Skills

- React
- Django
- Django Rest Framework
- Python
- Postgres
- HTML5
- CSS3
- JavaScript
- SASS
- Tailwind
- Bootstrap
- React Router
- Three.js
- Docker
- Docker-Compose
- Nginx
- Git
- Github
- jQuery
- Traefik
- Adobe Illustrator
- Gunicorn
- Linux
- Node.js
- NPM
- RegEx
- Bash
- VPS
- Vite

Projects

- My **Portfolio** is a modern simplistic website where know more about me and check out my beautiful designs
- **Mug** a fast social media platform, **read**, **delete**, **edit**, and **create** posts and comments, follow others and like others posts, login with simple one tap google or standard username and password, and so much more. Made with **clean and optimal** code, with **React** on the frontend, and Django **restAPI** on the backend.

- **Kentucky Game** you're suddenly transformed into a chicken called kentucky! Eat the worms, bananas, and strawberries that heal you. But beware from the dangerous foxes and hawks in the sky.
- **Chess**, play against a bot that tries to minimise your chances of winning
- Friendly Fur is a website where you buy dog food, treats and toys for your dog. You can also **detect allergies** of your dogs

---

Experience

2020 - current	**International Marketing Director**
	Kalidy LLC – Oklahoma, USA
